THURSDAY, SEPTEMBER 23,

A SUCCESS.

The Grass Valley Union assures us that the Fryer process of reducing ores is a success. The rebellious ores of Meadow Lake have had a careful and fair test and this process succeeds in removing the precious metals from the rock. Mr. Fryer says that his process will work the ores to within ninety-five per cent. of the assay. If it will do that its discovery will be of vast benefit to the mining public.

All miners know that even with the best known appliances, considerably more than five per cent. of the gold and silver will escape. So that if this new process will do what is claimed for it, we have no doubt that mines that now can not be profitably worked, will by it pay their owners.

Meadow Lake's existence depends upon it. This discovery will be of inestimable value to this State, and we therefore hope it will exceed its claimed merits.

PRISON SENSATION.

Yesterday's *Enterprise* contains a letter from Governor Bradley with reference to the State Prison sensation, of which we spoke yesterday.

This letter contains some very grave charges against P. C. Hyman, the Warden, and puts the whole affair in a different light. The Governor admits recommending Miller as a guard, and that he, (Miller) saw suspicious actions on the part of Hyman and told His Excellency of it.

Miller was told to continue to watch Hyman, and report what he saw. It seems that he used this trust to work upon the prisoners to displace Hyman, and disgrace him, if not to cause his death. This places the whole matter in a very serious light, and it has gone so far that it will have to receive a thorough rigid investigation. Then we shall see what we shall see.

CHARLEY ROSS.—The conviction of Westervelt, one of the accessories to the abduction of little Charley Ross, will probably result in the discovery of the child, or at least reveal some knowledge of his fate. The indictment against Westervelt contained five counts, the first two charges being a participation in the abduction.

On these accounts he was acquitted, but on the others—which charge guilty knowledge and a conspiracy to conceal—he was convicted. From the evidence it is clear that Westervelt was aware of the whereabouts of the child after the abduction, and that he shared the confidence of Mosher and Douglas, the two men who undoubtedly stole the boy, and who were afterwards shot dead while burglarizing a house in Brooklyn.

I. O. O. F.—The Grand Lodge of the United States convened in Indianapolis on the 20th, Grand Sir Durham, of Kentucky, presiding. Representatives were present from all the Grand Bodies of the several States and Territories and Canada and the Sandwich Islands. The following statistics are from the Grand Secretary's report, closing December 1st, 1875: Number of State Grand Bodies (including Grand Encampments and Grand Lodges), 81; Subordinate Lodges, 5,087; Subordinate Encampments, 1,630; Lodge members, 438,701; Encampment members, 83,415.

EPIZOOTIC.—Within the past few days a serious disease has broken out among the horses throughout New York City. It borders on the nature of the famous epizootic of two years ago. It is calculated that there are ten thousand horses now suffering from this new disease, the symptoms being precisely those manifested when epizootic first showed itself.

The town of Indianola, on the Texas coast, was destroyed in the hurricane last Friday night, and one hundred and fifty lives lost! A later dispatch says the towns of Salina, Matogorda and Cedar Lake have been swept away and all the people lost. Appeals are being made in the East for help for the sufferers.

NEWS PARAGRAPHS.

Illinois lost 28,848 soldiers and sailors during the war.

The reduction of the public debt during August was \$1,585,049.

Mrs. Tilton will be called as a witness in the Beecher-Moulton libel suit.

The London Police force consists of 9,202 men.

San Francisco has 852 unmarried female teachers.

Miss Clara Morris, the actress, reached New York on Monday, from Europe, with health improved.

Alex. H. Stephens has been engaged to deliver two lectures in Chicago during the coming winter.

Heavy frosts have done great damage in Iowa.

The cattle disease is very severe in Massachusetts.

A grand Railroad Convention is to be held in St. Louis, November 23.

A music teacher named Garland tried to kill his wife and then killed himself in East Brunswick, New Jersey, on Monday.

Joe Morris, the leader of the Georgia insurrection, has been arrested.

Kaufmann, the Russian General, has occupied Khokand and effected the entire submission of the Khan.

A Berlin editor has been sentenced to five months' imprisonment for writing an insulting article about Bismarck.

England growls a little at the conduct of the French officers over the Newfoundland fisheries.

Spain proposes to send eighteen thousand more soldiers to Cuba by the 15th of November.

The telegraph says the proprietors of the *Bulletin* and *Call* are preparing to sue the *Alta* for libel, and rich developments are promised.

At Santa Monica all the lumber has been absorbed in building new houses.

Governor Hartranft, of Pennsylvania, has brushed away a world-wide custom. He will no longer observe Friday as a hangman's day.

The Democrats of Nebraska have declared against their brethren of Ohio and Pennsylvania on the currency question; but New York harmonizes with Nebraska on this point.

By the steamer to China the Chinese shipped treasury to the amount of \$312,920—mostly trade dollars. And people ask where the money goes.

King Alfonso of Spain has issued a decree organizing a Commission to represent Spain at the Philadelphia Centennial and appropriating the sum of 800,000 pesetas for contingent expenses.

Bidwell carried three counties in the late election: Sierra, Mono and Lassen. Phelps carried five: Contra Costa, Humboldt, Placer, San Joaquin and San Mateo. Irwin carried all the balance of the 52.

Mr. Sharon has done the generous thing by tendering to Mrs. Ralston a suite of seven rooms in the Palace Hotel, San Francisco, with private servants, a private coach and coachmen, as long as she may see fit to use them.

If the mail train which recently ran from New York to Chicago in twenty-six hours, should be continued on at the same rate of speed, San Francisco would be only four days' travel from New York.

Cardinal McClosky has got another ring. He has lots of jewelry now and has changed his name to Santa Maria Sopra Minerva. That's his Sunday name. He goes it McClosky straight on week days.

It is expected that the Directors of the Central Pacific Railroad will early in the coming year commence the construction of a railroad towards Silver City Idaho. The surveying corps has made favorable progress with the work entrusted to them.

Old Mrs. Boulay, of Dallas, Texas, was ripping up her bed-room carpet the other day and came across \$10,000 in gold. It was hid there by her husband, who shortly afterwards died and made no sign. The old lady feels Boulay over her discovery.

It is estimated that the yield of gold and silver from the mines of Colorado for the first six months of the present year foots up in gold, \$1,052,700 and in silver, \$1,104,000. This is not supposed to include the products of the placer mines for that period.

THE NEVADA STATE FAIR.

The Lyon County Times very truthfully remarks as follows:

The second annual meeting of the Nevada State Agricultural, Mining and Mechanical Society, will commence its exhibition at Reno, on the 4th day of October, and remain in session six days, closing on the 9th. Our State, for various reasons, has been a little backward in making a public display of her products, while every other Western State and Territory have for years been putting the best foot forward to incite a rivalry between their citizens and products which they produce, thus yearly bringing the wealth of the State into friendly competition and making known to the outside world the fullest extent of their respective resources. The most cogent reason for this apparent apathy of the State, has been a supposed lack of the requisite variety of products of the State to make a creditable showing on exhibition. Our first exhibition, last year, clearly proved that these objections were not well taken, and that with proper effort our citizens throughout the State, combined, could make a very praiseworthy exhibition in all the many features which characterize a State Fair. The mineral products of Nevada are, of course, the principal source of her wealth, and take the lead; but, although of less importance, our agriculturists and stock breeders are now playing a very prominent part in the resources of the country, and have no cause to blush for their share in the display. The stock-breeders of the State have many and valuable thoroughbred cattle and horses which would take premiums at any State Fair, and our farmers now claim that they will make the best grain, fruit and vegetable display of any of the Pacific States. It is not expected, we presume, to make so large and varied a showing of fruit and vegetables as California or Oregon, but in the line of potatoes, roots, melons, peaches, plums and apples, men who are well posted upon farm products, claim that, in quality, Nevada more than favorably compares with either.

Like all other Pacific Coast Fairs, much of the time and interest will be invested in the exhibition and speed of horses, and the race-track will take precedence over any other feature.

Since the last year's exhibition, much has been done by the Society to improve the Fair Grounds and various exhibition buildings within them. Sixty-eight new stalls, 10 by 12 feet, have been erected especially for the housing of race stock, and more will be shortly built.

There are also 100 stalls for the accommodation of stock on exhibition. The Grand Stand and home stretch have been removed to the opposite side of the track to avoid the blinding effect of the sun in the morning.

This will be found decidedly better. Seats have been erected for the accommodation of 2,500 people, and half as many more are provided with a lobby from which to view the races.

The utmost liberality has been shown by the Society in their premium lists throughout, nearly \$10,000 having been divided into purses of from \$500 to \$2,000, as premiums for the fastest running and trotting horses.

This is done, not only with the intention of bringing out all of our State fairs, but for inducing the owners of the famous Eastern California trotters and runners, to bring them into the ring. The attendance of many well known horses is now fully assured, and this feature of the State Fair will be of no less interest than that of the Sacramento exhibition.

To any one who has not seen a pool of "2-18" and "2-20" horses fly around a mile track, the journey to Reno and the expenses incurred, will be amply repaid by a visit to the Fair.

We have read the rules and regulations, governing horses and riders, with a great deal of satisfaction, and feel certain that the utmost fairness will characterize the various contests.

By reference to our advertising columns, the full particulars, division of purses, entries, rules governing the racing, etc., will be seen. The citizens of Reno have taken especial pains to so arrange matters that the best and most ample accommodations will be afforded those who may visit the Fair, and apprehensions to the contrary will be needless. Should the weather prove favorable, the attendance will be large from all parts of this State and from the prominent cities of California.

A CERTIFICATE of increase of capital stock of the Savage Mining Company has been filed. The stock is increased from \$3,200,000 to \$11,200,000, and is divided into 112,000 shares of the par value of \$100 each.

The certificate is signed by the Trustees, J. C. Flood, W. S. O'Brien, C. W. Kellogg, George Wallace and George S. Dodge.

Some one curious in the matter has taken the trouble to analyze the sum of the Presidential salary. He finds that it is equivalent to about \$137 per day each day of the year. This is equivalent to \$5.70 an hour, or 9½ cents compensation for each and every minute of official existence.

Every second foots up a trifle less than one-sixth of a cent.

NEW TO-DAY.

SUSPENDED.—Last evening the

Daily Nevada Democrat gave its expiring gasp. Yesterday attachments were served at the instigation of former employees who had not received their wages, and though the amount of the attachments could not have exceeded \$600, the Democrat could not "stand the press" and so succumbed. Thus ends the brief, eventless existence of a paper that was going to do such a grand work in Western Nevada. That paper, in its valedictory, charges its suspension to the lack of support by the Democrats. We have an idea that management had a little to do with the collapse. Let it R. I. P.

To the FAIR.—W. R. Chamberlain and wife left this morning for the California State Fair, now in session at Sacramento. Mr. Chamberlain is the Vice-President of the Nevada State Agricultural, Mining and Mechanical Society, and has the interests of our approaching Fair much at heart. He wants to see how California conducts her Fairs and profit by their experience. This Fair closed Saturday.

STREETS.—The good work goes on and our streets are rapidly assuming a neat, clean appearance. All of the rubbish is being scraped off and carried away, so that the streets now look quite respectable. A day or two more and the whole thing will be finished in a style that will do credit to the town, and we need not blush when strangers visit us.

ACCRUED.—We notice that Rev. E. C. Arnold, late pastor of the M. E. Church of Reno, has accepted work in the California Conference, now in session in San Francisco. He was recommended and will take an appointment this year.

LEN'S DAUGHTER.—Among the arrivals from the East last Tuesday evening was a daughter of the late Rebel General, Robert E. Lee. She stayed in Reno over night and yesterday morning left for Virginia City.
